At the time of the 2020 AAPA Member Report (3-3-2020), there were a total of 1,883 members. This year the total membership count (as of 3/22/2021) is 1,222, indicating a 35% decrease in membership. The composition of new members is 72% women, 16% men, and 1% non-binary persons. The other 11% did not report gender. The majority of new members were students (68%). New student members were 76% graduate students, 23% undergraduate students, and 1 individual was a high school student.

II. Membership applicants

Between March 3, 2020 and March 22, 2021, a total of 181 people applied for AAPA Membership and were provisionally approved as new members. The new member applicants include 41 Regular members (including 4 members from qualifying countries), 17 Special members (including 3 members from qualifying countries), and 123 Student members (including 4 members from qualifying countries). In addition to new member applicants, there were 56 applications that were provisionally approved to transition to new membership categories. Of these, 16 members requested membership transitions between categories that do not need to be voted on (for example, Regular to Retired), and are not included in the lists below. The remaining 40 applications to transition between categories include Regular to Student (1), Student to Regular (34), Student to Special (5).

Some new membership applications were from members who had previously been voted on, but who had a membership lapse for five or more years. These members must be voted on as new members and are listed below.

All membership applications that require a vote are listed below. New membership applications are listed first, followed by applications to transition between membership categories.
