2013	2014	2015	2016	2017	2018	2019	2020	2021	2022 (as of 3-23-2022)
1457	1563	1950	2271	2263	2254	2074	1963	1474	1448

At the time of the 2021 AABA Member Report (3-22-2021), there were a total of 1,222 members. This year the total membership count (as of 3-23-2022) is 1,448, indicating a 18.5% increase in membership over the past 12 months.

II. Membership applicants

Between March 22, 2021 and March 20, 2022, a total of 337 people applied for AABA Membership and were provisionally approved as new members. The new member applicants include 86 Regular members (including 4 members from qualifying countries), 17 Special members, and 234 Student members (including 8 members from qualifying countries). In addition to new member applicants, there were 124 applications that were provisionally approved to transition to new membership categories. Of these, 42 members requested membership transitions between categories that do not need to be voted on (for example, Regular to Retired), and are not included in the lists below. The remaining 82 applications to transition between categories include Regular to Student (1), Student to Regular (69), Student to Special (7), Special to Regular (2), and Special to Student (3). The majority of new members were students (69%), and of these, 74% were graduate students.

Some new membership applications were from members who had previously been voted on, but who had a membership lapse for five or more years. These members must be voted on as new members and are listed below.

All membership applications that required a vote are listed below. New membership applications are listed first, followed by applications to transition between membership categories.
